Troikaa launches variant of painkiller injection

Troikaa Pharma today launched a new version of painkiller injection Dynapar AQ in 1 ml. Dynapar AQ is a high concentration injection that delivers the full dose of 75 mg diclofenac in just 1 ml, causing minimum muscle damage and less pain. Diclofenac is a non-steroidal, anti-inflammatory drug, widely prescribed for reducing pain and inflammation. The injections are used for managing acute pain due to surgery, trauma injury and colic.
