Troikaa Pharma unveils new diclofenac injection

Ahmedabad based Troikaa Pharmaceuticals Limited has unveiled a new version of its painless painkiller injection, Dynapar AQ 1ml. Dynapar AQ (Aqueous diclofenac injection) manufactured by Pharma's patented Aquatech process, is the world's first and only diclofenac injection which delivers the full dose of diclofenac in 1 ml, a company release claimed. Diclofenac is a non-steroidal anti-inflammatory drug (NSAID), widely prescribed for reducing pain and inflammation. Diclofenac injections are used for managing acute pain due to surgery, trauma, injury, colic etc. Dynapar AQ 1 ml can be easily administered in the arm muscle, thereby avoiding the thick fat layers of the buttock enhancing its efficacy. Ketan Patel, Managing Director of Troikaa Pharma said "at Troikaa, our focus had been to address unmet medical needs through innovative drug delivery the introduction of this drug 1 ml dose is in line with our promise to provide technology that augments existing healthcare treatments."
