TROIKAA GETS AUSSIE PATENT FOR PAINLESS PAINKILLER

Troikaa Pharmaceuticals Ltd. has been granted patent in Australia for its novel drug delivery form of Diclofenac injections - Dynapar AQ, the world's first painless painkiller injection. The company sought global protection for its novel product by filing PCT (Patent Cooperation Treaty) application with the World Intellectual Property Organisation. Subsequently, the company filed for global patents in 99 countries, which included regulated as well as non-regulated countries. Diclofenac injections are used for management of painful inflammatory conditions.
