### **OZ PATENT FOR TROIKAA**

Troikaa Pharmaceuticals Ltd. has been granted patent in Australia for its novel drug delivery form of Diclofenac injections - Dynapar AQ - the world's first painless painkiller injection. Dynapar AQ is a high concentration, low viscosity injection of diclofenac sodium, delivering the full therapeutic dose in just one millilitre injection volume. It is the only diclofenac injection available in PFS (pre-filled syringe) form. Diclofenac injections are used for management of painful inflammatory condition.
