DSIR National Award for R & D Efforts for Troikaa

Troikaa Pharmaceuticals will be conferred DSIR National Award for R & D Efforts in Industry 2008 for developing through in house R & D the world's first painless diclofenac injection marketed as Dynapar AQ Injection. The award will be conferred by the science and technology ministry on the 22nd National Conference on In-House R & D in Industry to be organised by DSIR. Diclofenac injections are routinely used for management of acute pain and inflammation.
